MODULAR TOUCH

Design your switchboard

Every switch board is unique at our homes, design your own switchboard configuration with our modular touch switch.

Touch switch is a smart device that enables you to turn on/off an appliance at one tap, whether it is manually or virtually. When the appliance is turned on, the device lights up blue in colour, therefore check the light of the device and know whether it is in use. It is a device that can be configured with an automation app and provide a smart look to your switches.

- Retrofit design:** All the variants of Touch Switch can replace two old mechanism switches each.
- Robust design:** Advanced firmware and rugged hardware design for long-lasting performance.
- Built-in S-Wi-Fi:** Equipped with secure Wi-Fi that ensures appliance control from any location
- Voice Command:** The automation app is compatible with all types of voice assistants such as Siri Bixby, Alexa, Google Assistant and more.
- Running hours:** Get the detailed running hours and control history of the device on your phone.
- Modern structure:** The device's exterior and interior design was made to provide elegant and modernized ambience to the user.

FULL GLASS TOUCH

They are elegant and waiting for your touch

Variants

43

A grand total of 43 different variants of full glass touch switch models with white and black colour options provisioning every aspect of customer requirement.

POWER MODULES

Control heavy load and track energy parameters

M-Fusion Power Modules are GSM/WiFi-based devices that can control attached load up-to 75Kw, measure power consumption and monitor multiple energy parameters in your plant. These devices can trigger workflows if they notice any accidental glitches in the power supply.

Built-in Energy Monitoring System provides an easy way to retrieve and analyze power quality events automatically. Unlike traditional energy management systems, M-Fusion IoT system extracts the real-time energy consumption insights from your plant and provides you with useful data points on your Dashboard.
